Bio

Ananya is a 24-year-old software professional with a busy lifestyle who helps manage grocery shopping for her household. She often forgets essential items, buys products that are already available at home, and sometimes exceeds her monthly grocery budget. She wants a simple and convenient way to plan her shopping, manage pantry items, track expenses, and receive timely reminders. She prefers digital solutions that save time and make everyday grocery shopping more organized.

"I want my grocery shopping to be quick, organized, and within my budget."

Goals

- To save time while grocery shopping
- To stay within her monthly budget
- To avoid forgetting essential items
- To know what is already available at home
- To reduce unnecessary purchases
- To track monthly grocery spending
- To avoid food wastage

Frustrations

- Forgetting important grocery items
- Buying products already available at home
- Going over the planned budget
- Spending too much time making grocery lists
- Forgetting products nearing expiry
- Impulse buying while shopping
- Difficulty tracking monthly expenses
